Release Highlights

Dear Educators,

We're pleased to share the **NextOS February** release updates.

We're continuously working to make NextOS better—so you can accomplish tasks more easily, make smarter decisions, and breeze through your daily work.

These release notes will keep you informed, help you explore new features, and ensure you're getting the most out of what's new.

You can always access these updates directly from your NextOS login:

Left Menu > Help Icon > What's New in NextOS

Please find below some of the highlights of this release.

01

Due Date Configuration Outside Academic Year

- Schools can configure current AY dates as due dates for next Academic Year fee dues
- Allows schools to collect advance fees for the upcoming session.

[know more...](#)

02

Fee Installment Due Date Update

- Update fee installment due dates even after collections.
- View all changes using the Installment Update History.

[know more...](#)

03

Marks Entry Checklist Report Enhancement

- Incomplete marks count is now added and made clickable in the checklist report.
- Quickly view students with pending marks entry.

[know more...](#)

04

Bulk Update Route Time

- Update pick-up or drop timings for multiple routes in bulk.
- Prepone or postpone route timings by specified minutes.

[know more...](#)

05

Students as Recipients in School Fee

- School Feed posts can now be shared directly with students.
- Enable "Include Students as Recipients" while selecting class-sections.

[know more...](#)

New Features

We've rolled out exciting new features to give you more control and flexibility in managing your day-to-day work on NextOS.

1. Fee

1.1 Due Date Configuration Outside Academic Year

What's New : Schools can now configure fee due dates outside the Academic Year (AY) date range while setting up fee schedules. When a due date falls outside the configured academic session dates, the system displays a confirmation warning allowing users to proceed if required.

Benefit : This enables schools to collect advance fees for the upcoming academic year while operating within the current session. It provides greater flexibility in fee planning and supports institutions that collect next year's fees before the new academic session begins.

Path : *Finance > Fee > Fee Schedule > Configure Installments > Set Due Date (Outside AY Range) > Confirm Warning > Save*

Due dates		Installation Period	
Due dates for Parents		Period covered by the installment (used for pro rata, if enabled)	
Fee becomes due on this date Starts showing as due for parents	Fee becomes overdue on this date Fine (if configured) will be applicable	Start Date	End Date
Start Date * 01-Feb-2025	End Date * 28-Feb-2025	Start Date 09-Mar-2026	End Date 10-Mar-2027

1.2 Fee Installment Due Date Update

What's New : Fee installment due dates can now be changed even after collections are done. Fine or prorata will be recalculated automatically based on the revised due dates. A History icon is available on the Fee Schedule page to track due date changes with user details, date, and time.

Benefit : Provides flexibility to update due dates when required while maintaining a clear audit trail. If fine configuration is enabled, fines will be recalculated based on the updated due date.

Note: Fines already collected will not be reversed.

Path : *Finance > Fee Management > Fee Schedule > Update Installment Due Date .*

Fee Schedule

Month	Start Date	End Date	Start Date	End Date	Start Date	End Date
May	01-May-2023	10-May-2023	01-May-2023	19-May-2023		
June	01-Jun-2023	01-Jun-2023	20-May-2023	01-Jun-2023		
July	01-Jul-2023			01-Jul-2023

Jan	01-Jan-2024	01-Jan-2024	01-Jan-2024	01-Jan-2024		

Warning: Fine Recalculation & Installment Date Change

You are attempting to change the due date for installments. This will have an impact on fine amount for the late payers.

Fine will be **recalculated** for all the respective students based on the new due date.
Note: Fine already collected will **not** be reversed.

Additionally, Since **prorata** is enabled, the due amount might be **recalculated** for some students based on their joining date & new instalment date.
Note: If the collection is done partial or fully, such dues will be **skipped**.
If required, please **reallocate** the fee category.

Do you want to proceed with this change?

NO YES

CANCEL SAVE

1.3 Fee Payment Options in Web Portal

What's New : Three fee payment options — Pay All Dues, Pay Outstanding Dues, and Pay Partial Amount — are now available in the Web Portal Fee Payment Gateway. These payment cards were previously available only in the mobile app and have now been implemented in the web interface as well.

Benefit : Provides parents with flexible fee payment options directly from the web portal, improving convenience and ensuring a consistent payment experience across both mobile and web platforms.

Path : Parent login > Fee > Fee Payment .

2. Payment Gateway

2.1 Aborted Status in Online Transactions

What's New : A new “Aborted” payment status has been added to Online Transaction reports. This status appears when a parent initiates an online payment but cancels or goes back before completing the transaction.

Benefit : Provides clear visibility into transactions that were cancelled by the user, helping schools easily differentiate them from other payment statuses.

Path : Fee > Payment Gateway > Online Transaction

Online Transactions 🔍 Search 🔔

⚠️ 26 Anomaly transactions exists for amount ₹9,69,014.49, please visit [adjustment screen](#) to act on it.

3. Examination

3.1 Dynamic Mark Table Widget

What's New : A new Dynamic Mark Table widget has been added to the Report Card Designer. This allows users to easily insert scholastic mark tables while designing report card templates. The widget supports configuration at class and term level for flexible report card layouts.

Benefit : Simplifies the process of adding scholastic tables in the report card design builder and reduces manual template configuration. exams are calculated, .

Path : Settings > Student > Examination > Report Card Builder > Designer Template > Dynamic Table Widget

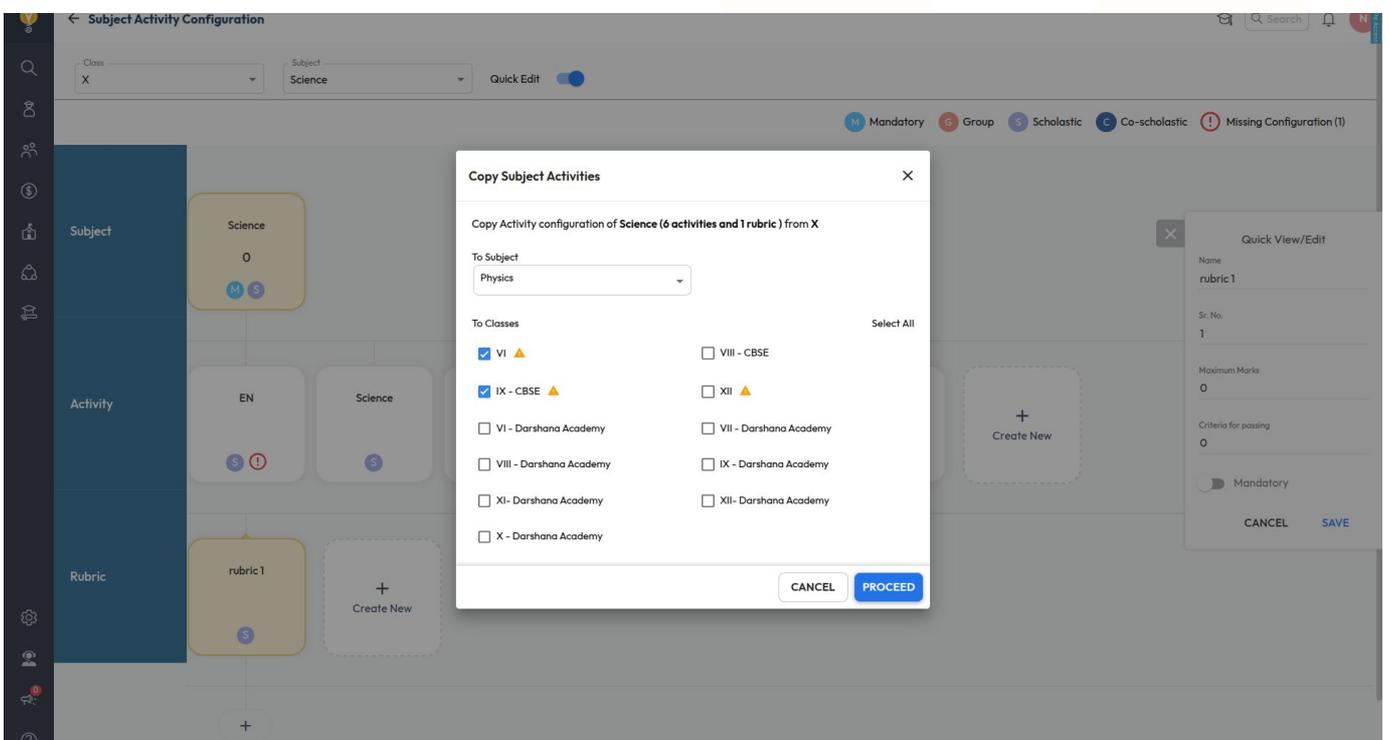

3.2 Subject Activity Configuration Copy

What's New : One can copy Master Subject Activity Configuration from one subject and class to multiple subjects across the same or different classes. This includes all configured activities and associated rubrics, allowing faster setup of subject activity structures.

Benefit : Reduces repetitive configuration effort for administrators and exam coordinators by enabling bulk copying of activity setups. This ensures consistency in subject activity structures across multiple classes and subjects while saving significant setup time.

Path : Settings > Student > Examination > Subject Activity Configuration > Select Subject > Click Copy Subject Activities > Choose Target Subject and Classes > Proceed

3.3 Marks Entry Checklist Report

What's New : In the Marks Entry Checklist Report, the incomplete marks count is clickable. When users click the count, they are redirected to the Gradebook page with relevant filters pre-selected, displaying the list of students whose marks entry is incomplete.

Benefit : Enables teachers and administrators to quickly navigate to the Gradebook and identify students with pending marks entry for faster completion.

Path : *Student > Examination > Examination Reports > Marks Entry Checklist Report.*

4.Transport

4.1 Bulk Update Route Time

What's New : A new bulk update option is available in Route Management to adjust transport service timings for multiple routes at once. Users can choose to update Pick Up Time or Drop Time and Prepone or Postpone the timings by a specified number of minutes.

Benefit : Helps administrators quickly update route timings across multiple services, reducing manual effort when schedules change.

Path : *Transport > Route Management > Select Routes > Bulk Update Route Time*

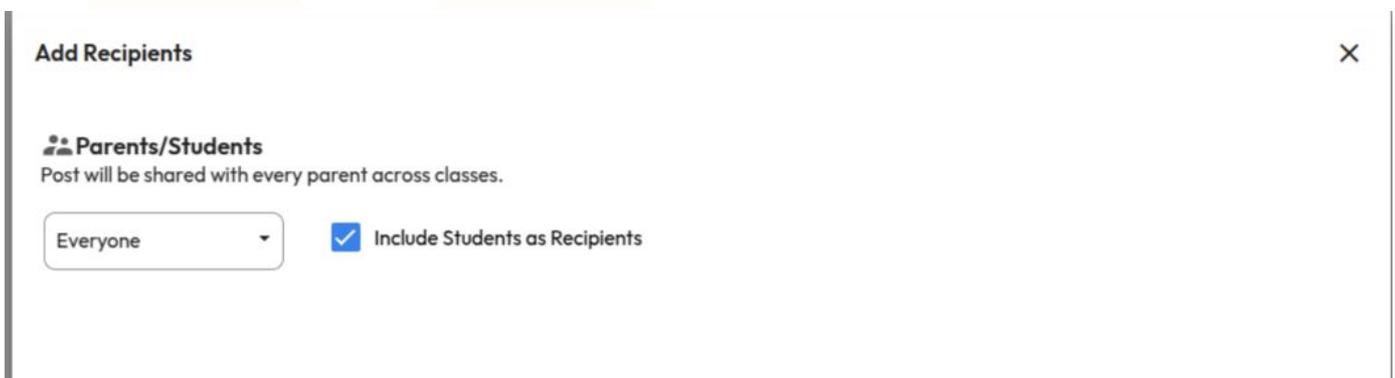

5. Communication

5.1 Students as Recipients in School Feed

What's New : School Feed posts can now be shared directly with students. While adding recipients, users can enable the “Include Students as Recipients” option to share posts with students of selected class-sections, in addition to parents.

Benefit : Improves communication reach by allowing schools to share important updates, announcements, and resources directly with students. This ensures messages are delivered to the right audience without depending only on parents.

Path : *Communication > School Feed > Create Post > Add Recipients > Select Class-Sections > Enable “Include Students as Recipients”*

6. Student

6.1 Certificate / Letter Generation for Inactive Students

What's New : Schools can now generate Certificates and Letters for inactive students without reactivating their records. The option to include inactive students is available in both Student-wise and Bulk generation.

Benefit : Saves time by eliminating the need to temporarily reactivate student records while generating documents.

Path : *Student > Student Services > Student Letter Generation > Generate Certificate / Letter > Enable Include Inactive Students*

Class - Section	Letter Type	Generated On	Certificate No
Playgroup - B			TC-18
Playgroup - B			TC-17
Playgroup - A			TC-16
Playgroup - B			3072
Playgroup - B			3075

Student Name	Admission No.	Class	Sec
KIRAN	TESTING-01	Playgroup	A

AARAV	NG_03	Playgroup	A
ADABJOT	NG_04	Playgroup	A
GURLEEN	19	Playgroup	A
GURNAAZ	29	Playgroup	A

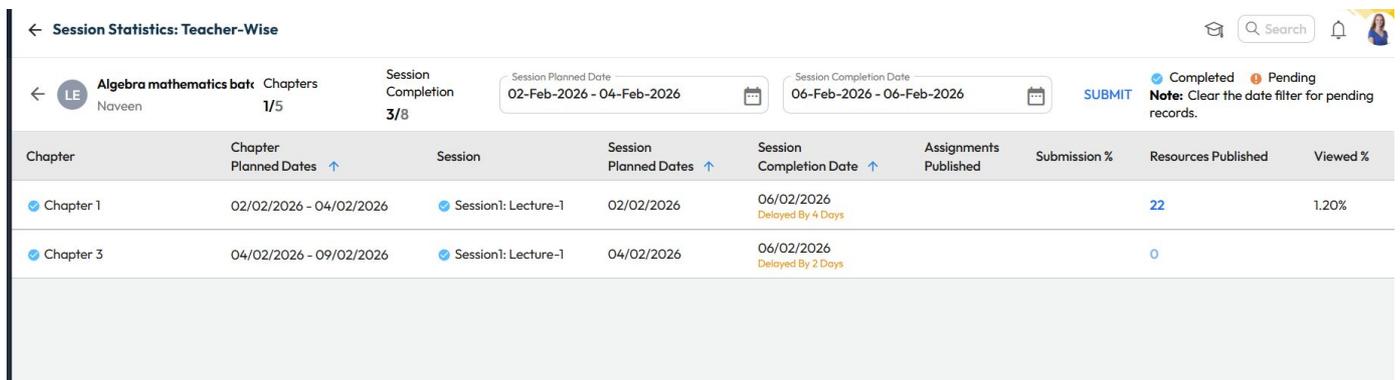

7. LMS

7.1 Teacher-Wise Session Statistics - Enhancement

What's New : Teacher-wise Session Statistics can now be filtered based on Session Planned Date. Earlier, filtering was available only using the Session Completion Date.

Benefit : Helps track planned teaching schedules and monitor session progress more effectively.

Path : Academics > Teacher Workspace > Principal Reports > Session Statistics > Teacher-Wise > Filter by Planned Date

Chapter	Chapter Planned Dates ↑	Session	Session Planned Dates ↑	Session Completion Date ↑	Assignments Published	Submission %	Resources Published	Viewed %
Chapter 1	02/02/2026 - 04/02/2026	Session1: Lecture-1	02/02/2026	06/02/2026 Delayed By 4 Days			22	1.20%
Chapter 3	04/02/2026 - 09/02/2026	Session1: Lecture-1	04/02/2026	06/02/2026 Delayed By 2 Days			0	

1. Communication

1.1 Communication Reports Enhancements

Improvement :

- Communication Batch Report: A new Recipient Group column has been added to display the recipient groups based on the selected contact type
- Message Status Report: A new column has been added to show the tags applied while sending messages.

Impact : Improves visibility of message recipients and tagged communications in reports.

Locate : *Collaboration > Communication > Communication Reports > Communication Batch Report / Message Status Report.*

2. Student

2.1 ID Card Generation for Provisionally Promoted Students

Improvement : ID cards can now be generated for provisionally promoted students. Earlier, the system restricted this action and displayed the message “*Student is promoted/detained, cannot perform.*”

Impact : Enables schools to generate ID cards for students in the new academic session even when the promotion process is still in progress.

Locate : *Student > Student Service > Student ID Card.*

3. Dashboard

3.1 Usage Behaviour Report Enhancement

Improvement : Login Usage behavior can now be analysed for Parents as well now. In the usage behavior report, Parent role has been added in the User Role filter

Impact : Allows schools to track and analyze parent login activity and usage behaviour

Locate : *Dashboard > Analytics > Explore More > Usage Behaviour > User Role Filter.*

4. Transport

4.1 Transport Route-wise Attendance Report Enhancement

Improvement : The Transport Route-wise Attendance Report now supports role-based access. Admins can view attendance for all classes and sections, while Class Teachers can view attendance only for the classes assigned to them.

Impact : Ensures appropriate data access based on user roles and helps staff view only the relevant transport attendance records.

Locate : *Student >Transport >Transport Reports > Transport Attendance Report.*

5. Attendance

5.1 Staff Attendance – Working Hours Display In App

Improvement : Working hours are now displayed in the Staff Attendance section. Staff can view their total working hours directly from the Attendance History in the mobile app.

Impact : Provides better visibility into staff attendance by allowing employees to track their total working hours along with their attendance summary.

Locate : *Mobile App >School hub> Attendance >My attendance.*
