New Features

We've rolled out exciting new features to give you more control and flexibility in managing your day-to-day work on NextOS.

1. Fee

1.1 Restrict Student Promotion for Fee Defaulters

What's New : A new “Restrict Promotion for Fee Defaulters” toggle has been added in Promotion Settings. When enabled, students with pending fee dues cannot be selected for promotion in the promotion screen. A Fee Payment Status column and filter are also available on the Student Promotion Process page. The setting is disabled by default.

Benefit : Ensures fee clearance before promoting students to the next academic year, improving financial control and accountability.

Path : *Student > Self Services > Student Promotion Process > Promotion Settings*

2.1 Fine Logic Enhancement

What's New : A new Slab Mode has been introduced with Applicable Slab and Cumulative Slab options to control how fines are calculated. Schools can tag each slab as either Flat or Day Wise. A new Live Example section and Fine Computation Logic panel provide instant visibility into how the configured fine will be applied

Benefit : Gives schools more flexibility and clarity in configuring fines, applied accurately based on overdue days.

Path : *Settings > Finance > Fee > Fine*

eg: Assume a ₹50 fixed fine mapped to Tuition Fee and Transport Fee. If the student is defaulter in both, he will be charged a separate fine for each fee type.

Tuition Fee	₹ 50
Transport Fee	₹ 50
Total charged	₹ 100

3.1 Wallet Balance Report

What's New : The Student Wallet Report now includes a "Balance" report option that displays each student's wallet balance till date. A "Show only students with balance" checkbox lists only students who hold a wallet balance.

Benefit : Helps schools manage one-time charges more flexibly while allowing parents to pay later through regular fee workflows or online payment.

Path : Settings > Finance > Fee > Fine

2.Examination

2.1 Optional Subject Mark Entry across sections

What's New : Teachers can enter marks for optional subject (scholastic and co-scholastic) students across multiple sections in one go. A "Select All for Optional Subjects only" option has been added in the Section dropdown on the Mark Entry page. Shown only when a class has multiple sections; available to admins and staff with section access.

Benefit : Saves time for optional subject teachers by allowing mark entry across sections in a single step.

Path : *Student > Examination > Marks Entry*

3.User Account Management

3.1 Deactivated Tab in Parent Account Management

What's New : A new "Deactivated" tab in User Account Management > Parents lists all deactivated parent accounts with an "Activate" option for each. Useful when a parent account was deactivated after an earlier sibling left and now needs reactivation for a newer sibling.

Benefit : Lets schools easily reactivate parent accounts without expert support.

Path : *Settings > School Setup > User Account Management > Parents > Deactivated tab*

4. Staff

4.1 Balanced Teacher Substitution – Free Periods Control

What's New : Under Automatic substitution mode, the system prefers teachers with more free periods and lets you set the minimum free periods to retain after substitution. If none is available within the limit, the system can skip the substitution or relax the limit step-by-step until a substitute is found

Benefit : Keeps substitutions balanced so teachers are not overloaded.

Path : Settings > Staff > Timetable > Teacher Substitution Settings

← Teacher Substitution Settings Search Edit

Choose the timetable substitution type :

Manual Automatic (The user can still make changes in output).

Daily cutoff time :

Attendance must be marked by this cutoff time, either through biometric or manual entry.
Applied leaves before this cutoff time will also be considered, provided that a substitution has been made.
Note : Automatic substitution will ignore the teachers who have already been substituted today.

Substitution criteria:
Priority of the alternate teacher criteria (i.e the teacher who will become the substituted teacher)

- Substitute teacher of same subject of same class
- Substitute teacher of different subject of same class
- Substitute teacher of same subject of different class
- Substitute any free subject teacher
- Substitute any free teacher

Free Periods Control:
System will prefer a teacher with higher free periods for automatic substitution
You can control the minimum free periods to be retained for a teacher after substitution

Min. Free Periods after substitution

System will try to retain at least 2 free period(s) after substitution

If no substitute teacher is found for a period due to above limit:

Skip substitution
 Relax the limit step-by-step until 0

Daily substitution report recipients:
Specify the recipient of all the substitutions consolidated on a particular date.

5.Communication

5.1 WhatsApp Custom Templates with Attachments

What's New : WhatsApp custom templates can be registered with an attachment (PDF, Video, JPG, JPEG) and sent with it included. The same media type added in the template must be attached each time. Applicable only for custom Sender IDs (the school's own WhatsApp Sender ID), not the NextOS Sender ID.

Benefit : Lets schools share richer communication with parents by sending documents and media with WhatsApp template messages.

Path : Settings > Collaboration > Communication > Alerts > WhatsApp > Custom Template

1. Staff

1.1 Substituted Periods in Academic & My Calendar

Improvement : Substituted periods are now shown in both the Academic Calendar and My Calendar for staff assigned as substitutes..

Impact : *Helps substitute teachers see their assigned periods directly in their calendar.*

Locate : Staff > My Calendar / Academic Calendar

2. Student

2.1 Attendance in Exam Tabulation Report

Improvement : A new Attendance column has been added to the Exam Tabulation Report, showing each student's attendance alongside their marks in the same Excel sheet.

Impact : Lets teachers view attendance and marks together in one report.

Locate : *Student > Examination > Examination Reports > Tabulation Report*

3. Fee

3.1 Daily Collection Report – Module Selection

Improvement : The Daily Collection Report now has an "Include" option to choose which modules – Fee, Inventory, Admission – to consider. The Student Wallet Transactions toggle appears only when the Fee module is selected.

Impact : Lets schools generate module-specific collection reports as needed.

Locate : Finance > Fee > Fee Reports > Daily Collection Report

3.2 Restrict Future Fee Payment Settings - Enhancement

Improvement : Enhanced the behavior of the existing "Restrict Future Fee Payment if Previous Dues are Pending" setting. When enabled, payment of future installments is now blocked if any previous installment remains unpaid, irrespective of due dates.

Impact : Schools can enforce strict sequential fee collection. For example, if the June installment is pending, the August installment cannot be paid until the June dues are cleared. This helps prevent accumulation of outstanding dues and improves fee collection discipline.

Locate : *Parent/Student Login > Fee Payment*

3.3 Bank Fee Mapping Report

Improvement : AA new report is available to see a consolidated view of Bank – Fee mapping as configured. It shows the different fee types mapped to different bank accounts across the Fee, Admission and Inventory sides, exactly as set up in the NLP. Data is grouped by classes wherever possible to keep the report concise and easy to read.

Impact : Gives schools a single, clear view of fee-to-bank account mappings.

Locate : *Finance > Fee > Fee Reports > Other Reports > Bank Fee Mapping Report*

3.4 Month/Installment Selection in Fee Payment (Web)

Improvement : Parent and student login now show month/installment selection on the Collect Fee page in the web version, matching the mobile app.

Impact : Gives parents the same installment-wise payment flexibility on web as on mobile.

Locate : *Parent/Student Login > Fee > Collect Fee*

5. Examination

5.1 Commentary Remarks in Term Level Report

Improvement : Commentary Remarks can now be included in the Term Level Report across all formats (earlier only Format 2). Enable "Term Level Commentary Remarks" and choose the master remark types to include.

Impact : Lets schools include commentary remarks directly within the Term Level Report.

Locate : *Student > Examination > Examination Reports > Term Level Report*

5.2 Commentary Remarks in Class Performance Report

Improvement : The Class Performance Report now supports commentary remarks alongside marks, grades, and attendance. Enable "Show Commentary Remarks" and choose Remark Based On (General/Term) and one or more Remarks Types; each appears as a separate column.

Impact : Useful for schools using commentary remarks to capture feedback and attendance.

Locate : *Student > Examination > Examination Reports > Class Performance Report*

6. Admission

6.1 Admission Summary Report – Date Range Filter

Improvement : The Admission Summary Report can now be filtered by Date Range, based on the student's "Created On" date.

Impact : Helps schools review admission counts for any chosen period.

Locate : *Admission > Admission Reports > Admission Summary Report*

6.2 Father/Mother Details in Offline Enquiry Form

Improvement : The option to collect only the Primary Contact or both parents' details is now available for the offline enquiry form (earlier only online), configurable via the Admission Form Editor, with updated bulk-upload fields and validation.

Impact : Gives schools flexibility to capture complete parent details during offline enquiries.

Locate : *Settings > Admission > Admission Form Editor*

7. Transport

7.1 Enhanced Transport Bulk Upload & History

Improvement : The bulk transport assignment upload is more user-friendly. New "Saved" (valid uploaded) and "Errors" (validated but failed) columns have been added. Clicking Invalid Entries downloads the error file; clicking Errors shows the failure reason.

Impact : Makes it easy to track upload results and correct failed records before re-uploading.

Locate : Student > Student Transport > Assign Transport Service > Bulk Upload

7.2 Primary Contact in Transport Fee Defaulters Report

Improvement : The Primary Contact column in the Transport Fee Defaulters Report now shows the student's Primary Contact name and mobile number..

Impact : Helps schools reach defaulters' parents directly from the report.

Locate : Student > Student Transport > Transport Reports > Transport Fee Defaulters Report

8. School Setup

8.1 Edit/Delete Permissions for Student Documents

Improvement : Edit and Delete action permissions have been added for Student Documents. Schools can retain edit/delete access only to selected roles. By default, access is given to the Admin role.

Impact : Gives schools better control over who can modify or remove student documents.

Locate : *Settings > School Setup > Roles & Permissions*

9. LMS

9.1 Staff Filter in Assessments Report

Improvement : A Staff filter has been added in the Assessments Report (Principal Reports), set to "All" by default. The remaining filter data is displayed based on the selected staff.

Impact : Lets principals review assessment performance for a specific teacher.

Locate : *Academics > Principal Reports > Assessments Report*

UI Enhancements

We've introduced targeted improvements across Student Promotion, Online Transactions, Fee Adjustments, Refund Processing, and User Account Management to simplify day-to-day administrative tasks.

What's New :

1.1 Student Promotion Process

The Student Promotion workflow has been consolidated into a single interface. Provisional Promotion is now available as a dedicated tab within the promotion process, eliminating the need to switch between separate screens.

Key highlights:

- Promotion counts are displayed for On Hold, To Be Promoted, and Promoted stages.
- Academic Session information is shown clearly throughout the process.
- Class and Section are automatically selected in promotion stages.
- Promotion, Detention, and Hold actions are available directly within the workflow.

1.2 UI Upgrade Across Key Modules

In this release, we have rolled out updated interfaces for Online Transactions, Payment Adjustments, Cancel/Refund Payment, User Account Management, List Views, Forms, and Settings, creating a more streamlined and consistent experience across the platform.

Why it Matters :

These improvements reduce the number of screens administrators need to navigate, provide better visibility into key operational processes, and make common tasks such as student promotion, payment monitoring, refund processing, and account management faster and easier to complete.
