New Features

We've rolled out exciting new features to give you more control and flexibility in managing your day-to-day work on NextOS.

1. Communication

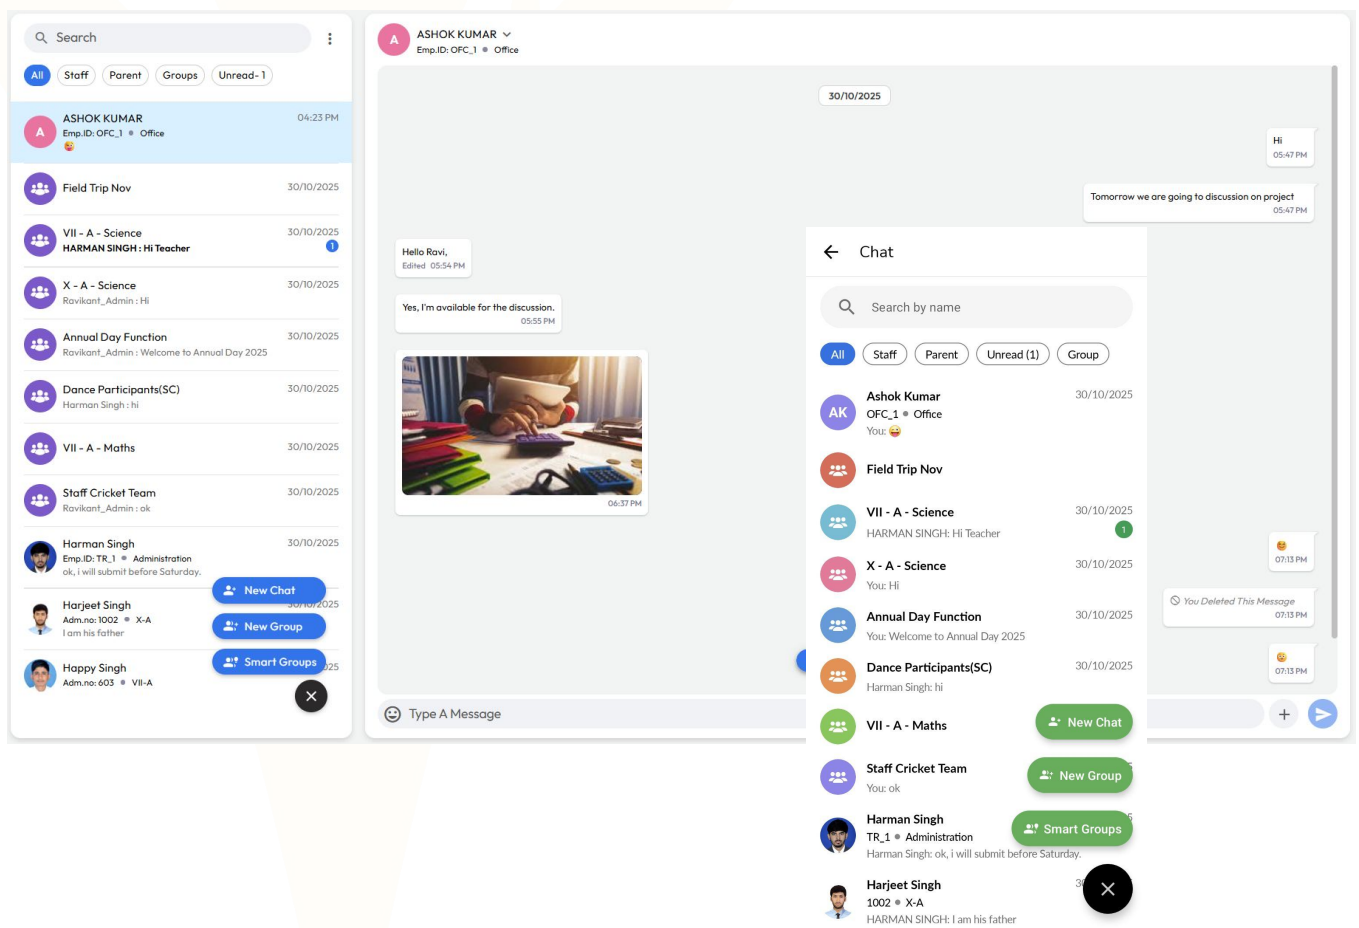

1.1 NextOS Chat - New Avatar

What's New : The all-new NextOS Chat is smarter, faster, and designed exclusively for schools — enabling secure and seamless communication among all stakeholders.

- **Direct 1-to-1 Chats:** Instantly start conversations between:
 - Staff - Staff
 - Parent - Staff
- **Regular Groups :** Create custom groups for specific purposes with choice of participants like :
 - Event based - *Annual Day, Field Trips etc.*
 - Staff only groups
 - Announcements for parents(View only)
- **Smart Groups :** System manages the participants automatically based on school records
 - Class Teacher - Parents
 - Subject Teacher - Parents
- **Central Control :** Exhaustive settings to control chat for staff/parents.

Benefit : A new-age communication platform built for schools — fostering collaboration and engagement between teachers, parents, and administrators without sharing personal contact details.

Path : *Communication > Chat > New Chat / New Group / Smart Group*

How is NextOS Chat better for School-Parent Communication?

NextOS Chat is purpose-built for schools, designed to support the day-to-day communication needs of teachers, parents, and administrators.

If you've been using WhatsApp for school communication, here's how NextOS Chat can offer much smarter, safer, and more organized alternative for all your parent and staff interactions.

Feature	WhatsApp	NextOS Chat
Access	Anyone with a number	Role-based and secure
Privacy	Contact Info is public Conversations are private	Contact Info is private Conversation can be monitored
Group Management	Manual, Tedious	Automatic, Smart Groups
User Context	✗ - Guess the parent	✓ Clear Info about student/parent
Central Control	✗ - No way to manage	✓ Easily manage all conversations
Monitoring	✗ - Get added to all groups	✓ Monitor without getting added
Built for	Personal use	School & School only

2. Fee

2.1 Smart Pay Concession - Enhancement

What's New : Schools can now configure Smart Pay Concession as a fixed amount, in addition to the existing percentage-based option.

Benefit : Provides better control over concession limits, allowing schools to set a fixed total amount as per their policy or student strength.

Path : Settings > Finance > Fee > Fee Concession > Concession Master > Add New > Select Concession Type as Smart Pay Concession > Logic as Amount

The image shows two screenshots of the Smartpay 100 interface. The top screenshot is the configuration page for 'Smartpay 100'. It shows fields for 'Concession name' (Smartpay 100), 'Concession Type' (Smart Pay (Early Payment Benefits)), 'Logic' (Amount), 'Applicable to' (Custom Instalments), 'Amount (₹)' (100.38), and 'Display Name' (Full Payment 100.38). Below these is a 'Validity configuration' section with 'Absolute' selected and a date range of '14-Nov-2025'. The bottom screenshot is the 'Payment Details' page for the academic session '2025-26'. It displays a table of fees and payments. A red box highlights a promotional message: 'Full Payment 100.38. Pay your Full Payment 100.38 fee now and enjoy a flat discount of ₹124.38 on the total amount. Valid till 14 Nov, 2025. -₹124.38 ₹5,612.47 Total Payable: ₹5,736.85. PAY NOW'.

7

1. Fee

1.1 Easier way to Assign Optional Fees

Improvement : Optional fees can now be assigned to a student directly from the Fee Collection page after the fee category has been assigned.

Earlier, this was only possible during fee category assignment or manually through fee type mapping. An Assign Optional Fees link has been added in the top section for quick access.

Impact : This enhancement provides greater convenience for accountants and adds flexibility to the fee mapping process by offering an alternate way to assign optional fees.

Locate : *Finance > Fee > Collect Fee > Search & Select a Student > Assign Optional Fees*

1.2 Optional Fee Amount Adjustment

Improvement : Schools can now increase the optional fee amount beyond the fee structure amount. Earlier, adjustments were limited to reducing the amount only.

Impact : Helps schools easily manage opening balances or miscellaneous charges that vary from student to student, offering more flexibility in fee management.

Locate : *Settings > Finance > Fee > Student Fee Dues > Search & Select Student > Edit Optional Fee > Enter New Amount*

1.3 Concession Settings - Enhancement

Improvement : Fee Concession Approval Settings for Regular, Adhoc, and all other types of concessions are now available under Fee Concession.

Earlier, these settings were located under Fee Collection > Global Settings.

Impact : This enhancement improves user experience by reducing navigation steps — all concession-related settings are now accessible in one place.

Locate : *Settings > Finance > Fee > Fee Concession > Fee Concession Settings > General Concession*

1.4 Fee Defaulter Student Info to Additional Class Teacher

Improvement : Teachers marked as additional class-teacher has access now to the fee defaulter list for the class

Impact : Helps additional class teachers stay informed about fee defaulters and proactively remind parents through diary notes or other communication channels.

Locate : *Staff Dashboard > Teacher Tab > Top Defaulters > Click "View More" to Expand*

1.5 Daily Collection Report - Excel Download

Improvement : The Daily Collection Report (DCR) can now be downloaded in Excel format, in addition to the existing PDF option.

Note: If the “Vertical Headers” toggle is turned on, the Excel option will be disabled.

Impact : Gives accountants more flexibility and convenience to generate and analyze reports in their preferred format.

Locate : *Finance > Fee > Fee Reports > 1.7 Daily Collection Report > Apply Filter & Download Excel*

2. Admission

2.1 Manage Admission - Enhancement

Improvement : A new filter, “Students Assigned to Me,” has been added. When enabled, staff can easily view only the students assigned to them as admission counsellors.

Impact : Helps counsellors quickly access their assigned student list, stay organized, and focus on lead conversion.

Locate : *Student > Admission > Manage Admission > Choose a step > Toggle “Students Assigned to Me”*

3. Student

3.1 Incident Entry using Mobile App (Android)

Improvement : Staff can now record incidents under student behaviour directly from the NextOS mobile app (Android).

Impact : Makes incident reporting quick, convenient, and accessible anytime through mobile devices.

Locate : *SNextOS App > Staff Login > School Hub > Student Behaviour > Add new*

4. User Account Management

4.1 Phone/Email update for Parent/Staff - Enhancement

Improvement : Earlier, when a parent's or staff's phone number or email was updated, their login account would revert to Not Created, requiring manual reactivation. Now, the account status remains unchanged — now users simply receive an intimation about the update and can log in using their new contact details.

Impact : Ensures account continuity and saves admin time while maintaining accurate contact details for parents and staff.

Locate : *Modify from Student List or Staff List*

5. Timetable

5.1 Timetable Excel Download - Multi Class-Section Selection

Improvement : Schools can now download timetable data for multiple classes and sections at once. Earlier, downloads were limited to a single class and section.

Impact : Helps timetable in-charges save time by generating and sharing timetable information for multiple classes in one go.

Locate : *Administration > Timetable > Timetable Dashboard > Excel Upload > Download Template > Download Template with Data*

6. Inventory

6.1 Grade mapping in Item Configuration

Improvement : A new Grade dropdown has been added in Item Configuration, allowing items to be assigned to multiple grades as applicable. Additionally, the Stock Status Report can now be filtered based on grades.

Impact : Enables inventory in-charges to efficiently track and manage items grade-wise, improving visibility and reporting accuracy.

Locate : *Settings > Administration > Inventory > Item Configuration > Create > Item > Grade*

7.1 Attendance Information in Student Usage Statistics

Improvement : The Student Usage Statistics report under Principal Reports now includes attendance information, providing a consolidated view of student engagement — covering access and usage of content, submission of assignments & assessments, and more.

Impact : Allows Principals to review attendance data alongside academic usage metrics, student participation, and assessment performance.

Locate : *Academics > Teacher Workspace > Principal Reports > Student Performance & Engagement > 2.5 Student Usage Statistics*

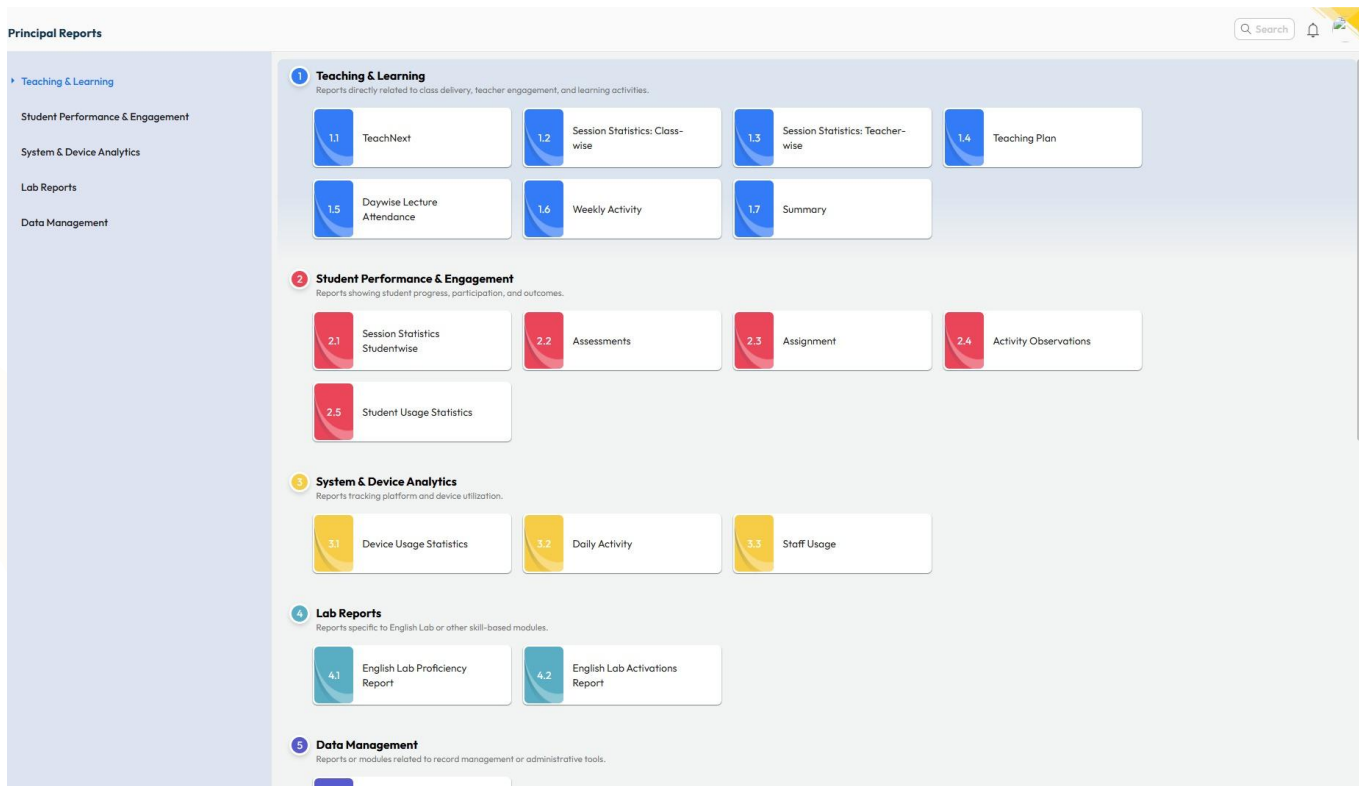

1. LMS

1.1 Revamp of Principal Reports UI

Improvement : The Principal Reports section in the Teacher Workspace has been redesigned with a new, modern look for smoother navigation and improved usability. Reports are now organized with different categories for quicker access.

Impact : Enables Principals and Academic Coordinators to access key reports easily, saving time and effort in daily academic review.

Locate : *Academics > Teacher Workspace > Principal Reports*

1.2 New Look & Flow for Assessment Creation

We've introduced a streamlined flow and enhanced experience for one of our most-used tools — Assessment.

The new interface is now available under Resource Management > Home, while the previous version remains accessible via the Assessment/Exam Corner section.

What's New :

The revamped assessment creation process now follows a simple five-step guided wizard for ease of use and clarity.

1. **Select Assessment Type:**
Choose the type of assessment you wish to create:
 - Course summative
 - Course formative
 - Competitive / Standard Exam
 - Self Learning
2. **Select Course:**
Pick the relevant board, class, and subject for which you want to create the exam paper.
3. **Choose Exam Paper Structure / Template:**
Select a predefined structure or template to maintain consistent print formats.
4. **Add Assessment Details:**
Enter essential details such as:
 - Assessment name
 - Duration
 - Language of the paper
 - Tags for easy tracking
5. **Build Assessment - finally build it as per your choice, eg.**
 - Select cognitive frameworks like Bloom's Taxonomy or Webb's Depth Levels.
 - Define criteria and autofetch questions from the Next Education Question Bank.
 - Update header details and save your inputs.
 - Download the ready-to-print question paper instantly.

Why it Matters :

These enhancements make assessment creation more intuitive, flexible, and globally adaptable, empowering schools to design question papers that meet diverse academic needs with greater efficiency.

Path :

Academics > Teacher Workspace > Resource Management - Home > Resource Creation > Click Assessment

← Assessment Creation

1. Select Assessment Type
Course Summative

2. Choose Course

3. Choose Template

4. Add Assessment Details

5. Build Assessment

1. Select Assessment Type

- ☒ **Course Summative**
Formal assessments used for evaluation, such as chapter-end, midterm & final exams.
- ☐ **Course Formative (Classroom)**
Flexible assessments which can be used in homeworks, classwork, and quizzes.
- ☐ **Competitive/Standard Exam**
Assessments used for standard and competitive exams such as IIT, Olympiad etc.
- ☐ **Self Learning**
